---

## SUMMARY

Creative and performance-driven **Front-End and Mobile App Developer** with hands-on experience building **scalable web applications using React.js , Nextjs** and **cross-platform mobile applications using Flutter**. Proven ability to translate product ideas and designs into clean, responsive, and user-focused solutions. Passionate about clean code, performance optimization, and continuous improvement. A strong team player with excellent collaboration, debugging, and design interpretation skills.

---

## EXPERIENCE

### PRODUCT APPLICATIONS

#### *Browpay Merchant App (Flutter)*

- Built a fintech merchant application enabling businesses to **receive payments, manage transactions, and track financial activities**
- Implemented secure authentication, transaction flows, and responsive UI for business users
- Focused on performance, reliability, and smooth user experience for financial operations

#### *Araya Mobile (Flutter)*

- Developed a healthcare platform connecting **doctors and patients**
- Features include:
  - Booking consultations
  - Real-time video/audio calls
  - Medicine ordering and delivery

- Payment integration for medical services
- Integrated APIs, real-time communication (socket-based), and secure user flows
- Designed for **scalability and real-world healthcare usage**

## Finosell (Remote)

### Frontend & Mobile App Developer

2024 – Present

- Built and maintained the Finosell Dashboard, a scalable React.js platform enabling CEOs and business owners to manage teams, approval workflows, and core business operations
  - Designed and implemented role-based access control (RBAC) and dynamic dashboards to support enterprise-level workflows
  - Developed Finosell Approval, a Flutter mobile application (published on Google Play Store) for seamless on-the-go approval management
  - Built MediSwift, a logistics application for hospital deliveries, featuring real-time task assignment, delivery tracking, and status updates
  - Developed SmartLearningTutors, a Next.js platform connecting tutors, students, and parents with features such as scheduling, attendance tracking, and academic performance monitoring
  - Integrated REST APIs and secure authentication systems, ensuring reliable and scalable data flow across applications
  - Optimized application performance and user experience for production-grade environments
- 

## Freelance Projects (Remote)

### Flutter Developer

January 2023 – Present

- Built and deployed multiple **Flutter Android applications**, including an e-commerce UI and a personal expense tracker
- Implemented **Firebase Authentication and Firestore** for secure login and cloud data storage
- Designed adaptive and responsive user interfaces optimized for multiple screen sizes and devices

- Debugged performance issues and integrated animations to enhance overall user experience
- 

## **Pivelar – Ikeja**

### **Frontend Developer**

*September 2023 – February 2024*

- Developed and optimized frontend features using **React.js and Chakra UI**, improving UI responsiveness and performance
  - Built reusable, modular components to support scalable application growth
  - Participated in design handoff reviews and client-facing product demonstrations
  - Supported junior developers through code reviews and technical troubleshooting
- 

## **InBrandPR – Ogba**

### **Frontend Developer (Intern)**

*March 2022 – December 2022*

- Built dashboards and landing pages using **React.js and Firebase**
  - Implemented real-time data synchronization with **Firestore**
  - Translated **Figma designs into pixel-perfect, responsive components**
  - Actively participated in agile sprints, daily standups, and team reviews
- 

## **EDUCATION**

### **Speedway Polytechnic, Ojodu Berger**

*Ordinary National Diploma (OND)*

April 2022 – Present

## **Nigeria Institute of Information Technology (NIIT)**

*Diploma in Core Java & Web Development*

April 2022 – October 2023

---

## **TECHNICAL SKILLS**

**Frontend:** React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Chakra UI, Tailwind CSS, Material UI

**Mobile:** Flutter, Dart

**Backend / Tools:** Firebase, REST APIs, Node.js (Basic)

**Workflow & Others:** Git, GitHub, Agile, Clean Code, Figma, Data Structures

**Development Tools:** VS Code, Android Studio

---

## **KEY STRENGTHS**

- Creative Problem Solving
  - Attention to Detail
  - Fast Learner & Adaptable
  - Strong Team Collaboration
  - Time Management & Task Prioritization
- 

## **KEY ACHIEVEMENTS**

### **React Task Manager Application**

- Reduced unnecessary re-renders by **40%** using memoization and lazy loading
- Built a scalable SPA using React, Chakra UI, and Firebase

### **Flutter E-Commerce Application**

- Developed a responsive shopping app with product listings, filters, and cart functionality
- Integrated real-time updates using Firebase for smooth user experience

### **Personal Portfolio Website**

- Designed and deployed a portfolio showcasing projects and skills
  - Achieved **300+ monthly views**, increasing online visibility
- 

## **PROJECTS**

### **React Task Manager**

- Task management SPA built with React, Chakra UI, Firebase, and custom hooks

### **Flutter E-Commerce App**

- Mobile shopping app featuring product browsing, search, and cart functionality

### **Personal Portfolio Website**

- Portfolio website with project showcase, contact form, and resume download
- 

## **TRAINING & COURSES**

- Frontend Development – freeCodeCamp
  - Flutter App Development Bootcamp – Udemy (Angela Yu)
  - React.js Crash Course – Traversy Media (YouTube)
  - JavaScript Algorithms & Data Structures – freeCodeCamp (*In Progress*)
-

## **LANGUAGES**

- English – Native
- Yoruba – Native
